

The X rod's all-new fast action taper built with our KonneticHD Technology delivers greater blank recovery and a crisper tip stop - creating tighter, more efficient loops throughout all ranges of casting styles. This taper allows you to dig deeper into the rod and access the lower sections, shifting power closer to the angler. Decreased lateral and medial movement and vibrations in the blank result in a more accurate and efficient presentation, resulting in a performance driven, forgiving fast action blank - refining the synergy between angler, rod, line, and fly.

SERIOUSLY SMOOTH, ULTRA FAST ACTION PERFORMANCE

You didn't become an expert caster just to say you did. And you didn't do it overnight, either. You practiced, fished hard, and got better because you wanted to catch more fish, more often. You paid your dues, and you met the fish on their own terms, which meant getting the fly out to places they felt the safest: out of the range of merely average casts. Fast action rods have always been a part of your success, and the new METHOD gives you more of what you love most. Like our fastest line speeds to punch through the wind and to carry the biggest, bulkiest, heaviest flies in your box out to where they can strut their stuff.

REIMAGINED GENERATION 5 TECHNOLOGY

One of the greatest benefits of always pushing the limits of rod technology is that it gives us vital insights to rod design using previous technologies. Case in point: our new medium-fast action ACCEL family of rods. Created using our responsive Generation 5 technology, our all-new ACCEL benefits from key insights garnered through the development of Konnetic Technology®. Light and ultra-responsive to throw tight wind-busting loops, it's like going back in time to bet on your favorite sports team with the score in hand—you've got a winner and you know it.

Gloss Emerald Finish

Heavy fishing pressure pushes trout out of their soft glides into faster, choppy runs protected by rocks and structure. Europeans developed a style of direct line nymphing using multiple, weighted flies fished under tension on light tippets to systematically dissect these micro-environments, catching fish when no other method could. The new ESN Series with Konnetic technology makes for an extremely light blank, ideal for the repetitive casts this precision method requires. Its responsive, supple tip telegraphs every boulder, bump and bite, giving you ultimate control.

MODEL	LENGTH	LINE	BUTT SIZE	TIP SIZE	WEIGHT (OZ)	PRICE

Gloss Black Finish

Just like you wouldn't pull out your driver when you need your 7 iron, the MOD is optimized for the distances and scenarios most often encountered by the trout angler. Thoughtfully crafted with contemporary line designs, fly patterns, and angling styles in mind, the MOD is a modern interpretation of a moderate action specific for trout fisheries. Designed between the deep loading CIRCA and fast action ONE, the MOD excels at measured distances to the short game, delivering delicate presentations with pin-point accuracy. Designed and handcrafted on Bainbridge Island, the MOD features all the lightweight, strength, responsiveness, and accuracy benefits of our proprietary Konnetic Technology®.

SERIOUS FLY RODS BUILT TO HUNT GIANT SWIMMING CARNIVORES

In recent years, there has been a significant rise in the popularity of pike and musky fly fishing. Pike fishing has especially grown in European and Scandinavian fisheries. Based on this demand and the success of the 7'11" BASS II family, Sage is introducing two new rods targeted specifically at pike and musky fishing. Based on the fast action, powerful BASS II rods, the PIKE and MUSKY rods come in a 9' length to better handle heavy fly lines and wind-resistant flies that are used to target these species.

MODEL	LENGTH	LINE	BUTT SIZE	TIP SIZE	WEIGHT (OZ)	PRICE
Pike Blank 4-Piece	9'0"	10	0.394	5.0	2.00	\$450.00
Musky Blank 4-Piece	9'0"	11	0.425	5.0	2.25	\$450.00

OFFERING SALTWATER ANGLERS PRECISION AND POWER WITH THE SALT

For the incredibly diverse range of casting demands placed on the saltwater angler, the accuracy, strength and precision of Konnetic Technology® has enabled us to craft a fly rod like no other saltwater rod before it. The SALT HD is a fast loading, high line-speed salt-action rod that gives you the confidence to know that you're ready for anything the salt can throw at you. Sight casting smaller flies out to nervous bones finning along the flat in only four inches of water? Quickly and precisely drop the fly where they'll see it without spooking. Casting to tarpon that appear suddenly in a gusting wind? The SALT HD's decidedly robust salt-action taper gives you the power to maximize today's heavier fly lines to deliver flies of all sizes at all ranges with effortless precision.

MODEL	LENGTH	LINE	BUTT	TIP	WEIGHT (OZ)	PRICE
690-4 SALT HD	9' 0"	6	0.348	4.5	1.75	\$550.00

Squid Ink Finish

When you're casting big flies onto weed mats to trigger attacks from the bucketmouths below, you're in for a day of spectacular strikes and big memories—maybe even a tournament title. The Bass II blanks have been upgraded for faster line speed to carry big, bulky flies straight to their target—everything from explosive smallmouth in their river lairs, to voracious snook and tarpon stealthfully pulled from the mangroves on your kayak. The new Peacock model joins this lineup, a true heavyweight ready to go toe-to-toe with giant Peacock Bass.

Gloss Light Green Finish

SERIOUSLY SMOOTH, ULTRA-FAST ACTION

When you know you've got something special, you want as many people as possible to get their hands on it right away. In fact, both hands. Designed for two-handed aficionados who know that even perfect casts always have room for improvement, the METHOD is the two-handed casting machine they've been waiting for. Constructed using our now thoroughly battle-proven Konnetic technology, it features a seriously smooth, ultra-fast action that generously provides that most important quality needed for effortless two-handed cast: tremendous line speed. Thanks to its aggressive butt-to-tip taper that optimizes loading energy and flawlessly transfers it through the forward cast's vibration free tracking for exquisite accuracy, the METHOD smoothly snaps out the tightest of loops to carry the fly straight out to your target. All while being superbly light for all-day casting without fatigue. Big water. Big flies. Big fish. Big fun.

REIMAGINED GENERATION 5 TECHNOLOGY

Combining power and casting efficiency with elegant looks, the ACCEL Two-Handed rod is a finely crafted fishing tool with innovative features that belie its more value conscious origins. From its bright and alluring Emerald blank to its newly designed rod seat featuring subtle details like a matte Stealth Black finish and laser engraved logo, the ACCEL Two-Handed rod is a classic representation of the Sage DNA that it embodies. It throws long, tight casts that land where you want them, and is light and responsive for all-day casting. The ACCEL is true casting performance and value without compromise.

SAGE GEAR

Sage gear blanks are once again available! This series has been extensively tested and new designs added to the already famous line-up. The old favourites are back along with some new models to round out the series. This series has a blank for every steelhead and salmon fishing application; from light freshwater to saltwater downrigger and mooching to heavy bar blanks.
